All plants quoted will be carefully selected, BALLED AND BURLAPPED.

ABIES Fraseri. Fir. Balsam.

Nursery Grown.	Per 10	Per 100
18 to 24 inches, stocky, straight stems, well-branched	\$10.50	\$ 90.00
2 to 3 ft., stocky, straight stems, well-branched....	11.50	105.00

AZALEA calendulacea. Flame Azalea. Many shades of yellow, orange, and buff.

Nursery Grown, Clumps Transplanted.	Per 10	Per 100
8 to 12 inches, strong, well branched, many young stems	\$9.00	\$80.00
12 to 18 inches, strong, well branched, many young stems	14.00	125.00
18 to 24 inches, strong, well branched, many young stems	17.50	160.00
2 to 3 feet, strong, well branched, many young stems	20.00	180.00

AZALEA calendulacea.

Collected Clumps.	Per 10	Per 100	Per 1000
18 to 24 inches, strong with many young stems	\$7.00	\$60.00	\$550 00
2 to 3 feet, strong with many young stems	8.50	70.00	600.00
3 to 4 feet, strong with many young stems	12.00	110.00	950.00
4 to 5 feet, strong with many young stems	20.00	170.00	1,500.00
We have a large supply of all sizes.			

AZALEA nudiflora. Pinxter Flower. Flowers Pink, Fragrant.

Nursery Grown, Clumps Transplanted.	Per 10	Per 100
8 to 12 inches, strong, well branched, many young stems	\$9.00	\$85.00
12 to 18 inches, strong, well branched, many young stems	14.00	120 00

AZALEA vaseyi. Shell pink Azalea. Very rare, early bloomer.

Nursery Grown, Clumps Transplanted.	Per 10	Per 100
8 to 12 inches, strong, well branched, many young stems	\$13.00	\$120.00
12 to 18 inches, strong, well branched, many young stems	17.00	160.00
18 to 24 inches, strong, well branched, many young stems	27.50	

Kalmia latifolia, cut back or burnt over, collected plants. No. 1 shows 18 to 24 inch average plant. Numbers 2 and 3 are average 2 to 3 ft. plants.

KALMIA latifolia, Calico Bush. Mountain Laurel. Gives a fine effect when inter-planted with Rhododendrons. Does well in either sun or shade.

Nursery Grown, Clumps Transplanted.

	Per 10	Per 100
8 to 12 inches, many young growths	\$12.00	\$100.00
12 to 18 inches, many young growths	17.50	

KALMIA latifolia.

Collected Clumps Burnt Over and Cut Back

These are the finest plants we have ever offered.

	Per 10	Per 100	Per 1000
12 to 18 inches, 20 to 30 young stems	\$7.00	\$60.00	\$500.00
18 to 24 inches, 20 to 30 young stems	8.00	70.00	600.00
2 to 3 feet, 30 to 40 young stems	9.00	85.00	650.00
3 to 4 feet, 30 or more young stems	15.00	125.00	
2 to 3 feet <i>Specimens</i> , 50 or more young stems, extra fine	17.50	150.00	

An average 2 to 3 ft., cut back or burnt over, collected specimen plant of *Kalmia latifolia*.

P R I C E L I S T

LEIOPHYLLUM prostratum. Allegheny Sand Myrtle. Indispensable for borders and Rock Gardens in colder sections. Blooms for several months.

	Per 10	Per 100	Per 1000
4 to 6 inch spread, fine clumps	\$4.50	\$40.00	\$375.00
6 to 10 inch spread, fine clumps	5.50	50.00	450.00
12 to 15 inch spread, fine <i>Specimens</i>	17.50	150.00	

RHODODENDRON carolinianum. Carolina Rhododendron. Flowers vary from light pink to deep pink. Blooms from four to five weeks before *R. catawbiense*. Does well in full sunlight.

Nursery Grown, Clumps Transplanted.

	Per 10	Per 100
8 to 12 inches, heavy, young stems, very bushy	\$17.50	\$150.00
12 to 18 inches, many young stems, very bushy	18.50	175.00

RHODODENDRON carolinianum. Collected Clumps.

	Per 10	Per 100
12 to 18 inches, heavy, many young stems.....	\$12.00	\$110.00
2 to 3 feet, heavy, many young stems	18.00	165.00
3 to 4 feet, heavy, many young stems	32.50	300.00

Average plants of our Nursery grown, transplanted clumps of *Rhododendron Catawbiense*, 18 to 24 inches, and 2 to 3 feet.

RHODODENDRON catawbiense. Catawba Rhododendron.

Exceedingly hardy. Does well in full sunlight. Colors vary from lilac to purple and almost red.

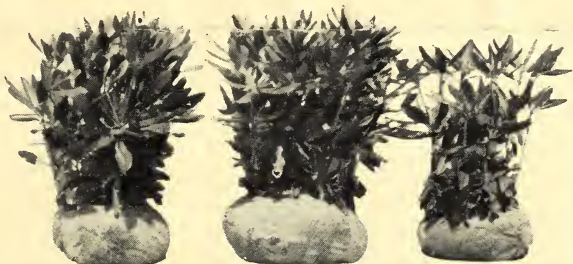

Nursery Grown Transplanted Clumps. Exceptionally Compact and Vigorous.

	Per 10	Per 100	Per 1000
8 to 12 inches, with many stems	\$15.00	\$140.00	\$1,150.00
12 to 18 inches, 6 to 10 stems, which are heavily branched	19.00	185.00	1,800.00
18 to 24 inches, 6 to 10 stems, which are heavily branched	25.00	240.00	2,200.00
2 to 3 feet, 10 to 18 stems, which are heavily branched	35.00	300.00	
2 to 3 feet <i>Specimens</i> , 18 to 30 stems, which are heavily branched..	40.00	350.00	

RHODODENDRON catawbiense.

Collected Clumps Burnt Over and Cut Back. Unusually Vigorous.

	Per 10	Per 100	Per 1000
18 to 24 inches, 6 to 10 stems, heavily branched	\$13.00	\$120.00	\$1,100.00
2 to 3 ft., 10 to 15 stems, heavily branched	18.00	160.00	1,550.00
3 to 4 ft., 15 to 20 stems, heavily branched	30.00	275.00	
2 to 3 ft. <i>Specimens</i> , 20 to 30 stems, heavily branched	35.00	300.00	
3 to 4 ft. <i>Specimens</i> , 30 and more stems, heavily branched	40.00	350.00	

Our average collected, burnt over or cut back, *Rhododendron Maximum*, 18 to 24 inches and 2 to 3 feet.

RHODODENDRON maximum.

Great Laurel. Rosebay Rhododendron. Flowers white and light shades of pink. Does best in a shady location, although we have thousands of fine plants which are growing luxuriantly in full sun.

Nursery Grown, Clumps Transplanted, Very Vigorous.

	Per 10	Per 100
12 to 18 inches, 5 to 8 stems, which are heavily branched	\$15.00	\$125.00
18 to 24 inches, 8 to 12 stems, which are heavily branched	18.00	170.00
2 to 3 feet, 8 to 12 stems, which are heavily branched	20.00	190.00
3 to 4 feet, 10 to 15 stems, which are heavily branched	35.00	300.00
2 to 3 feet <i>Specimens</i> , 15 or more stems which are heavily branched. Very symmetrical	30.00	250.00
3 to 4 feet <i>Specimens</i> , 15 or more stems which are heavily branched. Very symmetrical	40.00	350.00

P R I C E L I S T

RHODODENDRON maximum.—Cont'd.

Collected Clumps Burnt Over and Cut Back. An unusually fine lot of vigorous plants. We can supply many carloads.

	Per 10	Per 100	Per 1000
12 to 18 inches, 10 to 15 stems, heavily branched	\$6.00	\$55.00	\$480.00
18 to 24 inches, 10 to 15 stems, heavily branched	7.00	65.00	500.00
2 to 3 feet, 15 to 25 stems, heavily branched	10.00	80.00	750.00
3 to 4 feet, 15 to 25 stems, heavily branched	14.00	120.00	
2 to 3 feet <i>Specimens</i> , 25 or more stems, heavily branched	20.00	150.00	

One of our average specimen plants of burnt over or cut back, collected Rhododendron Maximum, 2 to 3 feet.

Note: The *Kalmias*, *Rhododendrons Catawbiense* and *Maximum*, which we describe as **BURNT OVER AND CUT BACK CLUMPS**, and **NURSERY GROWN**, are of unusual value and should not be confused with the usual grades of collected stock.

TSUGA canadensis. Canadian or Common Hemlock. A very handsome ornamental tree for the lawn, also makes an excellent hedge, extensively used for wind brakes.

	Nursery Grown. Compact, sheared, straight stems.	Per 10
2 to 3 feet	\$20.00	
3 to 4 feet	35.00	

TSUGA canadensis.

	Collected.	Per 10	Per 100
2 to 3 ft., well branched	\$11.00	\$100.00	
3 to 4 ft., well branched	16.00	140.00	
4 to 5 ft., well branched	20.00	180.00	
5 to 6 ft., well branched	35.00		

TSUGA caroliniana. Carolina Hemlock. Conceded to be the hardiest and handsomest of all Hemlocks. It has very dark foliage, compact growth, branches pendulous, a rapid grower.

Collected.

	Per 10	Per 100
2 to 3 ft., well branched	\$20.00	\$160.00
3 to 4 ft., well branched	25.00	200.00
4 to 5 ft., well branched	30.00	250.00
5 to 6 ft., well branched	45.00	400.00

Block of *Rhododendrons Catawbiense* and *Maximum* in one of our nurseries at Linville.

P R I C E L I S T

PLANTING AND CARE OF RHODODENDRONS

To get satisfactory results, keep Rhododendrons mulched with leaves, peat moss, straw or old hardwood sawdust; and protect from winds by planting hardy evergreens on the north and west exposures; but the most important of all is an acid well drained soil, composed of loam, leaf mold and peat. Give plants an abundance of water, as they are not deeply rooted, and they should never be allowed to suffer for moisture. Never use a hoe, pull out the grass and weeds. When the blooming period has passed, break out the bunches of seed pods. This process will enable the plants to put on bloom buds for the ensuing year and there will be no "off year."

Treat your plants according to these simple directions and they will afford you pleasure and blooms

One of our average cut back collected Rhododendron Catawbiense,
2 to 3 feet, photo taken September 1st 1932.
